Parents and Guardians,

I hope this communication finds you and your families healthy and safe. The administrative team at the Lebanon County Career & Technology Center has been working very hard to complete our Pennsylvania Department of Education's Health & Safety Plan for bringing students back to our campus for the start of school.

The LCCTC, in concert with our respective school district, offer a career-focus option to all students in Lebanon County. Our 23 technical programs use classroom instruction, as well as an excellent hands-on component for a well-rounded vocational experience. As such, our goal is to have all students and staff on campus at the beginning of the school year. We continue to plan for that scenario as well as other blended/hybrid options for educating our students during the COVID-19 pandemic.

The Health & Safety plan is a living document and is subject to change as we continue to receive updates from the Center for Disease Control, Pennsylvania Department of Education, and the Pennsylvania Department of Health on the reopening of schools in Pennsylvania.

Your input is very valuable to us. We encourage you to review the plan on our website, www.lcctc.edu or [Facebook](#). Upon reviewing the plan if you should have any questions or comment please send them to us via a comment section.

Thank you for your continued support during these difficult times in education.

Sincerely,

Glenn W. Meck II
Administrative Director
Lebanon County Career & Technology Center
