Scavenger Hunt

On Monday, May 24th we hosted our first annual Scavenger Hunt! We tested our students' knowledge on CTC facts and landmarks to see who pays attention to their surroundings. There was a total of five stations. Each station had a question about CTC that students had to answer before they could see the clue to find their next location. Students competed in teams of two to see who could solve all five clues the fastest and with correct answers. They had a blast running around outside trying to decipher their clues. Help us congratulate our 2021 CTC Scavenger Hunt Winners!

Let's see how your CTC knowledge measures up!

1. How many programs does the CTC offer for high school students?
2. What is the art or practice of garden cultivation and management?
3. What was the first day of school for the 2020-2021 school year?
4. What is the old school nickname for the Lebanon CTC?
5. What is the correct name of the Administrative Director of the Lebanon CTC?

Real World Experiences

This year brought on many new challenges for our students as they navigated through a changing world, but the school-to-work program still gave many students the opportunity to explore the workforce during the 2020-2021 school year. A total of 108 students participated in either clinical, cooperative education, internship, or job shadowing opportunities. These experiences gave students the opportunities to observe and/or work in the field of their program of study to gain more knowledge and understanding of the type of work that is done in that career field. Several of our students will enter into employment or continue employment with these businesses. The CTC thanks all the employers and businesses who give our students these very beneficial experiences!

COSMETOLOGY PROGRAM

Cosmetology class ended this year with 16 out of 20 students completing the application to take the Pennsylvania Cosmetology Exam for licensure. The remaining students are working on completing remaining hours with the online learning platform called Mind Tap. Working as an intern at a salon is also another option for students to finish. About half the students in this year's class are currently working in salons through out the area. This has been a great accomplishment due to COVID restrictions, but students were diligent to complete assignments and hours. Some assignments were online, but most were in class. One cosmetology student was able to complete hours in March and take her state board exam. It was the first time in a very long time that a student was licensed before the end of the school year. Congratulations to Sonieliz Delgado Cruz! Many students will be taking their exam during the month of August since those were the time slots available. Until the time of the exam, students can work under a licensed cosmetologist with a temporary permit issued from the State Board of Cosmetology.

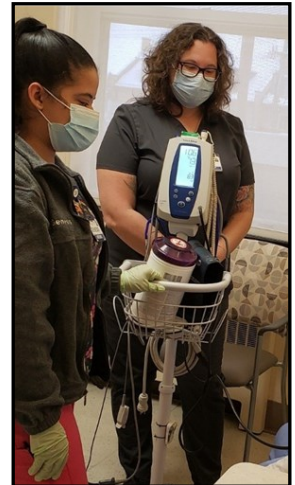

When this year started, the outcome was uncertain. Technical skills were taught quickly with the anticipation of class being held virtually. Student home kits were packed just in case. Fortunately, there were not many days that the student home kits needed to be used. Most skills were practiced in class. Students had a lot of practice on manikins and then, during the 4th marking period, some staff members were able to schedule appointments with students for hands-on practice. Student's also practiced skills on each other or worked in salons as an intern.

This year's class was also excellent with technical skills. Students used Schoology, the Remind app and Flip Grid to submit assignments and pictures of their work. Reflecting on this past year, some teaching techniques and classroom assignments were altered and adapted but it was still a very successful year. Students were able to complete the required hours, schedule the exam and find jobs in salons.

Decision Day

It is one of our favorite times of the year! Celebrating our seniors during our Official Decision Day! On May 21st seniors that have committed to a four-year university, two-year college, military or entering the workforce/ professional training participated in LCCTC's annual Post-Secondary Decision Day. Seniors were asked to wear an item of clothing that represents where they will be attending/enrolled/working, etc. after graduation. The students placed a star on the map with their name/college/military branch/employer of where they will be located.

To support our students, staff participated in our Decision Day by showing off their alumni school spirit or previous employer!
